

Declaration of **RoHS - COMPLIANCE**

KLOTZ AIS GmbH herewith confirms that bulk cables and assembled (premade) cables are in full compliance to the Regulations, Directives and Rules of RoHS 2011/65/EU.

KLOTZ bulk cables are manufactured under EU 2011/65/EC. Lead-free soldering technology has been used for almost 20 years for assembled (premade) cables.

According to the confirmation of the respective manufacturers all connectors are compliant to EU 2011/65/EC.

At the same way, all the substances listed in RoHS 2011/65/EU Directive and in its relative amendment 2015/863/EU (the six originals plus the updated four phthalates) are not present in our product in a quantity greater than the maximum allowable threshold of 0,1% in homogenous material.
